CultureClap & MnActivist.Org

DreamFreely
Communication + Unity Est. 2010

Building the World's Best Workforce by Bridging Communities in Minnesota and Beyond.

My complete name is Canin Carlos Apriori-Mendoza Anderson-Nordling. I was adopted to Minnesota from Colombia. I did not have a good experience, and was inspired to create *MnActivist.Org*. We are teaching youth to code, and helping them build a portfolio, aligned with the state's aspiration to have the World's Best Workforce.

In addition to teaching classes, I am continually creating foundational tutorials, and video content, students are directed to use, on Twitch and YouTube. As a sponsor, you will receive exclusive banner space in these videos, along with other benefits outlined at cultureclap.com/corporate-sponsorship.

Regarding demographics, **I am educating ambitious tech-savvy youth to pursue in-demand skills, while providing them access to mentors employed locally in the tech sector.** Lastly, our platform serves anyone wanting to be more civically aware and engaged.

Knowing such a project is not accomplished alone, I have built a team at DreamFreely to support every aspect of this work. The only thing I lack are funds.

I am looking for 8-10 organizations to provide \$10,000 each, so that I might focus entirely on this work over the next ten months. In exchange for your sponsorship, you will receive exclusive advertising opportunities as well as digital content to promote the amazing community we are building together ... growing the World's Best Workforce!

You may email me at canin@dreamfreely.org to schedule a phone call and further converse.

Thank you for your time.

Light and laughter,

Apriori
Canin Carlos
